## Vecino Salud App Provides Health Information to Help Prevent COVID-19 Spread in Cordoba, Argentina

**Province of Cordoba**

Argentina

**Source:** Guillermo Acosta, Secretary of Economy and Finance, Municipality of Cordoba (ACE Ambassador)

The Province of Cordoba, Argentina, launched a user-friendly mobile app called *Vecino Salud*, which allows users to test themselves for COVID-19 and receive information about healthcare measures. The app does not replace medical appointments with health professionals but offers a preliminary diagnosis for users to seek professional advice.

The app also provides information about the nearest health centers in Cordoba based on the users' geolocation, as well as real-time statistic reports about the COVID-19 pandemic.
