FINEP jointly with the Sao Paulo Research Foundation (FAPESP) launched a Call for proposals to mitigate Covid-19's impact. The objective is to grant funds to accelerate SMEs' technologies for products, services or processes that help fight Covid-19.

Proposals could include a wide range of technologies, such as diagnostic tests, ventilators, artificial intelligence CT scan, remote health services, digital solutions for monitoring and forecasting the spread of the virus, robots to assist health professionals, broad-spectrum therapy solutions, among others.
